

Here's the survey approach or, the project analyst.

"Can you help me out I'm working on a project."

1. Where are you on your spiritual journey? (or) What is happening spiritually in your life?
Are not all of us on a spiritual journey of some sort?
2. If you died tonight, are you 100% sure that you will go to heaven?
3. If you were to die tonight and you would stand in front of God, and He asked: "Why should I let you into My heaven?" what would you tell Him?
We will have to give an account of our lives before God one day. See Matt 7:21-23 and Hebrew 9:27
4. When you die what do you think is on the other side? What do you think is out there when you walk out of here! Then ask where do they get your information from?
5. Why do you wear that cross? T shirt, jewelry, tattoo, etc. Look good? Do you know that someone died on that cross!" no! Did you know that the cross is an instrument of death?" no! "Would you wear an electric chair around your neck?"
6. Do you want to go to heaven? Then follow up with "do you know how to get there?" Can I show you how to get there?
7. What is the most important thing in the world to you? On the day you die, what do you think will be the most important thing to you? What do people value in life? Shouldn't it be where you are going? Use word pictures. Like the security tag in a shop and the one in heaven.

(Need sometimes to talk about relative versus absolute truth. It does not matter what you believe, it matters only what is true. It's not just as long as you think something is true that it makes it true! The truth is independent of what someone believes it to be! Example: Adolf Hitler killed 6miljon of God's chosen people. So as long as he believed in his heart that it was an ok thing to do then it was definitely ok to do, wasn't it?" There must be absolute truth. Absolute truth can only be found in Scripture. Or, in what situation is rape okay? Think about it? Since it is wrong for all in all places at all times then "rape is wrong" would be an absolute truth. And if one there cannot be two, or three, etc. Many wrong answers only one right answer!)
